Energiewende - A Global Green Deal

# BETD Media Fellowship 2020 – Call for Application

Every spring, high-level international decision makers come together at the Berlin Energy Transition Dialogue to discuss the fundamental transition of the global energy sector and its impact in order to address climate change, prosperity and sustainable development. The meeting connects stakeholders from politics, business, science and civil society. This two-day conference turns Berlin into the hotspot of the global energy transformation towards renewable energy and energy efficiency. For participants, it provides an ideal opportunity to share in-depth knowledge, discuss innovative concepts and shape the political discourse. In 2020, the Berlin Energy Transition Dialogue is dedicated to the topic „Energiewende - A Global Green Deal“. More information can be found on [www.energydialogue.berlin](http://www.energydialogue.berlin).

The conference is also setting the stage for the Berlin Energy Week which features unique hands-on experiences of the energy transition, along with side events, guided tours, receptions, business-to-government formats and workshops. In previous years, the Berlin Energy Transition Dialogue and the Berlin Energy Week attracted more than 2,000 high-level participants from more than 90 countries including 40 ministers and vice ministers. Further, it reached an audience of more than 15 million people through social media channels.

The German Federal Foreign Office has put in place the BETD Media Fellowship to give selected young journalists and social media influencers from all over the world the opportunity to participate in the Berlin Energy Transition Dialogue and the Berlin Energy Week. BETD 2020 Fellows will have full access to the exclusive events taking place during the Berlin Energy Transition Dialogue 2020 and the Berlin Energy Week. Full travel arrangements will be provided by the organisers of the Fellowship; all travel expenses will be covered.

While at the conference, the Berlin Energy Transition Dialogue Media fellows will have the opportunity to report on the conference through social media channels, video clips, interviews and the official BETD Fellowship website.

Applicants should have a proven record of reporting on the energy transition, international energy and climate policies, decarbonisation, foreign policy or a related field. Based on these criteria a high-level jury including Michaela Spaeth (Deputy Director-General for Energy and Climate Policy, *Federal Foreign Office*), Dr Simone Peter (President, *German Renewable Energy Federation*), Vera Scholz (Head of Department, *GIZ*), Sven Egenter (Executive Director, *Clean Energy Wire*) and Anne-Sophie Garrigou (Editor in Chief, *The Beam*) will select the Fellows.

**Applications can be submitted on <https://fellows.energydialogue.berlin>  
Deadline for Application: 02.02.2020**
